

Climate Change AI

CERTIFICATE OF PARTICIPATION

Climate Change AI Virtual Summer School 2026

This certificate is awarded to

Sandesh Rai

*for successfully completing the requirements associated
with the Climate Change AI Virtual Summer School 2026,
held from July 20–August 22, 2026.*

The Climate Change AI Virtual Summer School equips participants with literacy and skills at the intersection of climate change and AI, including foundations in AI, climate change, and responsible & ethical design, as well as exposure to a wide range of AI-for-climate applications across different sectors.

This certificate attests that the participant completed at least 6 foundation modules and 4 sectoral modules, entailing engagement with lectures, hands-on coding tutorials, and short quizzes. Completion of the minimum requirements represents an estimated 30 hours of engagement with program activities.
